STANOMER

Portfolio Digitization & Migration Result Report

Client: Axia Exclusive Real Estate & Property Management
Date: October 21, 2026
Scope: 36 Managed Units — Belgrade Portfolio

Executive Summary

All records for the **36 managed luxury residential units** in the Axia Exclusive portfolio—including active lease agreements, landlord and tenant profiles, 2026 rent schedules and collections, utility invoices (Infostan, Electricity, Building Maintenance, Parking, Internet), and property operations logs (Dnevnik Događaja)—have been systematically imported, reconciled, and verified on the Stanomer platform.

1. Data Sources, Imported Records, and Reconciliation Statistics

Data Category	Excel Source Volume	Imported to Stanomer	Excluded / Filtered Out	Reconciliation & Filtering Criteria
Managed Properties	36 Folders / 36 Files	**36 Properties**	0	Belgrade Waterfront, Landmark, West 65, and A Blok units fully mapped.
Lease Contracts	35 Master Lines	**34 Active Contracts**	2 Properties	BW PERLA 2401 and ST. REGIS 3607 recorded as newly handed-over vacant units.
2026 Rent Payments	210 Excel Rows	**194 Current Rent Items**	16 Rows	Pre-2026 historical rows moved outside the current accounting calendar to the tenancy inception archive.
Utility Bills & Expenses	738 PDFs + ~850 Excel Rows	**668 Verified Invoices**	182 Rows	Duplicate subtotals (UKUPNO, TOTAL), empty lines, and pre-2026 archives filtered out of the current calendar.
Operations Log (Dnevnik)	433 Note Entries	**356 Operation Records**	77 Rows	Empty separators and single-word checklist marks omitted; technical service, delivery, and maintenance logs preserved.
Total Financial Transactions	**1,060 Rows**	**862 Transactions**	**198 Rows**	194 Rent + 668 Utility items verified and booked for the 2026 calendar year.

2. Migration Principles and Scope Decisions

2.1. Scope: January 1, 2026 and onwards, per Axia's request

Financial and operational tracking has been structured covering January 1, 2026 and onwards, as requested by Axia.

2.2. Annual Renewal Chain

For contracts with an annual renewal chain, the most recent contract year has been imported into the system. The original initial start date of the tenancy is preserved in the property records.

2.3. Proportional Allocation of Partial Utility Payments

When a tenant payment was less than the total monthly utility debt, the amount was distributed proportionally across the corresponding utility bills (Infostan, Electricity, Maintenance). The settled portion was cleared, and the

remainder was booked as an outstanding payable.

2.4. Cash Rounding Tolerance (1 RSD)

As the smallest cash denomination in Serbia is 1 RSD, minor rounding differences under 1 Dinar arising from banking or decimal conversions were treated as settled within reconciliation tolerance.

2.5. Expense Category Standardization

Building management nomenclature has been standardized into 5 core operational categories: Infostan (Municipal utilities), Electricity (EPS), Building Maintenance, Parking, and Internet/TV.

2.6. Contact Information & Direct Invitation Infrastructure

No synthetic or placeholder email addresses were generated for owners or tenants without an existing email; fields were left blank to allow the agency to enter verified contact details and dispatch invitations directly.

3. Portfolio Overview & Unit Status (36 Properties)

#	Property Name	Landlord / Entity	Active Tenant	Contract Period	Monthly Rent	Status
1	**BW TERRACES 104**	ASSERIA STONE PARTNERS	Narcis Bečirović	2025-11-20 – 2026-11-19	**2.500 EUR**	Tenanted
